Delete screenshots by tapping Photos > Screenshots > tap the screenshot in question > Trash Can. Delete multiple screenshots by tapping Photos > Screenshots > Select > select all the screenshots > Trash Can. Screenshots can be 'undeleted' by tapping Photos > Recently Deleted > Select > Choose the files you wish to recover. This article teaches you how to delete screenshots on an iPhone or iPad and explains where screenshots are saved. If you regularly take screenshots on your iPhone, the collection can grow quite rapidly. Fortunately, it's very simple to remove screenshots from your iPhone. Even better, the process is the same with all iPhones and iPads so you'll soon learn how to do it. Here's what to do. These instructions are the same on both iPhone and iPad. On your iPhone or iPad, tap Photos. Tap Screenshots. You may need to scroll down to find it. Tap the screenshot you wish to delete. Tap the trash can icon in the bottom right hand corner. Tap Delete Photo. The screenshot is now deleted. The process is quite similar if you'd prefer to delete multiple screenshots at once on your iPhone or iPad. Here's what to do. On your iPhone or iPad, tap Photos. Tap Screenshots. You may need to scroll down to find it. Tap Select. Select all the screenshots you wish to delete. If you want to delete all of them, tap Select All. Tap the trash can icon. Tap Delete Photos. Screenshots save to the same folder as all the photos you take—i.e., the Photos app. However, once you delete them, they go somewhere else before your device permanently deletes them. Here's where to find them and how to remove or recover them. Tap Photos. Scroll down to Utilities. On an iPad, Utilities are on the left-hand side of the screen, but you might need to tap the arrow next to its name. Tap Recently Deleted. Tap Select. Tap either Delete All or Recover All. If you tap Delete All, they are permanently deleted from your device. Recover All returns them to your Photos app. All recently deleted files are permanently deleted after 30 days. Nearly anything. If it's on-screen on your iPhone or iPad, it's possible to take screenshots. The only exceptions are streaming content which tends to return a black screen if you take a screenshot, and some password-related options, which may blank out certain parts or block screenshots. If taking a screenshot of something someone has sent you, remember to ask permission to take the screenshot before doing so. Taking screenshots can be helpful if you want to keep a record of something or even if you want to share a fun image with someone. FAQ Why can't I delete screenshots on my iPhone? If you can't delete a photo on your iPhone, it's synced to another device like your Mac. Connect your iPhone to your computer, then delete it on both devices. Why can't I take a screenshot on my iPhone? Can I turn off screenshots on iPhone? No. You can't disable screenshots on iPhone, but iOS 12 and later only allows screenshots when the screen lights up. To avoid accidental screenshots, go to Settings > Display and Brightness and turn off Raise to Wake. Why are my iPhone screenshots blurry? If your iPhone screenshots look blurry when you send them in a message, go to Settings in the Messages app and disable Low-Quality Image Mode. How do I take full-page screenshots on my iPhone? To take full-page screenshots of a website on iPhone, take a screenshot, tap the preview in the corner before it disappears, then tap Full Page. The page will save as a PDF. This option isn't available in all versions of iOS. Thanks for letting us know! Get the Latest Tech News Delivered Every Day Subscribe Tell us why! It's a good idea to periodically delete your history or clear your cache (or the collection of stored data, like your browser history), in order to keep your browser running optimally. On the downside, you might lose conveniences like saved passwords or auto-fill templates for online forms. But your browser will run faster and your internet privacy will be much more secure. If you want to clear your Google Chrome history and clear your browser, here's a step-by-step guide. You can also easily delete a google gmail account. 1. Open Google Chrome on your computer. Click the 3 dots in the top right corner of the application. 2. Click "History". 3. Click "Clear Browsing Data". A box with a list of options will appear in the center of the screen. 4. Clear your history based on your preferences. From the drop-down menu you can select how much history you want to delete. If you want to delete your entire browser history, select "all time." Check the boxes for what you want to erase, being sure to include "browsing history." Click "clear data" to complete the process. By Nicole Vulcan | Photos.com/PhotoObjects.net/Getty Images When you type in a different language often enough, it's helpful to have easy access to a keyboard that displays the symbols and letters necessary to communicate in that language. With an international keyboard setting enacted, you can change between different languages by tapping the globe icon near your keyboard's space bar. At some point though, you may no longer have the need for that keyboard. A simple setting change can help you "delete" that language, so it's not available when you press that globe icon. Another thing you might need to do: change the language of the interface, when it's set in a language that doesn't allow you to read the keys on your iPhone. Tap the Settings icon, which looks like a set of gears, on your Home screen. Tap "General" in the Settings menu. Tap "International" in the General menu. Tap "Keyboards" in the International menu. Tap "Edit" on the Keyboard menu, located in the top right corner of the screen. Locate the language you want to delete from your keyboard and tap the red circle next to the language. Tap "Delete" to delete that language. Your keyboard settings will be changed the next time you call up the keyboard. Tap the Settings icon, which looks like a set of gears, on your Home screen. Tap the gear icon on the Settings menu, which represents the "General" menu. Scroll down the page on the following screen and identify the grouping of that has four options included, and tap the third option. This represents the "International" menu. Tap the first option on the next screen, which will open up a list of the available languages on the iPhone. Select your desired language from the list that appears, and then tap the blue icon in the top right corner, representing "Done." Your browser history can be a wonderfully useful thing or in some cases a somewhat embarrassing one. We've shown you some tools that make it easier to clear your history and also a few tools to make it more useful. But we're curious. How often do you clear yours?
